Dear Florence

I received your letter of Mar 19 and
am very glad to hear from you again.
I have finished writing mama and
Elizabeth a letter and though I should
write you I should get called
out again. I have the postal card from
you and I am and think they are very
United States like. Florence as I told mama
I am feeling like a young lion and only
one thing I am thinking about and that is
when will we whip the Germans so
that we can get back home again.
I have my kerosene on my table at present
with a lit candle on the top; the candle is
just about finished and if I don't hurry
with this letter there will be no light to write
by. Florence am glad to hear you are
still working hard at knitting, also the
rest of the kids in your room, you don't

know how important your work is.
Florence I hope. Mamma and papa
are still working hard and hope you
are playing your part in helping them.
You should be about 8 months bigger
now and certainly wish you would
send me your picture, also one of Edith.
The kids I see here go to school in
wooden shoes, and their clothes are
very shabby looking, but they seem smart
looking and are very happy. Most weeks
one of their fathers are on the front fighting
and when school is out they work hard
at home making a living. Well Florence
I have told all the news in the other letters
so there is little more to write. I must write
I am out tonight and say hello to him.
Good night Florence. I must get another
candle some place.
With love Your Bro George.
